Alert Construction Voted the Triad's Best

Alert Construction is the Triad's Best Home Maintenance Company, as voted by Yes! Weekly's 2010 Best of the Triad Awards.

"This award is a testament to the excellent service we provide to homeowners," said Alert Construction Owner Ed Regensburg. "To meet the needs of our customers, we offer free quotes and 24/7 emergency service."

Regensburg once waited three days for a plumber to fix one of his tenant's hot water heaters. He felt that repair and remodeling companies left a lot to be desired. Alert Construction opened in 1998 with an in-house team of skilled electricians, plumbers, carpenters, painters and handymen.

Since that time, Alert Construction has served thousands of customers in the Triad.

"Homeowners trust Alert Construction for superior service and reliable repairs," he said. "We are very proud of our A+ rating from the Better Business Bureau."

Alert Construction can handle any size job – from installing a ceiling fan and fixing a leaky faucet to building a deck or remodeling a kitchen. All jobs come with a 100% satisfaction guarantee.

Customers rely on Alert Construction for quality repairs in a timely manner.

"Everything was done in a timely manner and handled with superb professionalism," said Callie Jessup of Greensboro, NC. "I was very impressed with not only the cosmetic repairs, but the plumbing and electrical repairs as well."

Alert Construction is currently building new homes in several subdivisions in Greensboro, NC.

StreamSide is a new home community tucked in a quaint spot near Guilford College. It is conveniently located with easy access to parks, schools, shopping, restaurants and major roads. The homes at StreamSide offer many upgrades, including hardwood floors, granite countertops and a large great room with a fireplace. These custom homes are priced from the \$200s.

Pleasant Ridge Farms West is located in Northwest Greensboro on Ridge Haven Road. Priced from the \$180s, these homes range from 1700-2300 sq ft with nice amenities. The homes have open floor plans and huge backyards with tons of privacy.
